

Views

Description:

The „views“ within EuroFib for Windows allow **postings/reports** (account sheet, balance list, balance sheet, generator for managerial analysis etc.) **for several laws** (UGB, IFRS, US-GAAP, etc.) **in a single client.**

Features:

- Various user definable views
- Separation via accounts or voucher types
- Rights administration for each view and user

Default-View

Internal accounting

Accounting clerk:

Do the current accounting

Example view „UGB“

National regulations,
business law

Accountants:

Do the relevant UGB (re-) postings

Example view „IFRS“

International regulations
and consolidated regulations

Chief-accountant:

Do the IFRS financial statements
